

WORTHING AND DISTRICT SOCIETY OF MODEL ENGINEERS

APPLICATION FOR MEMBERSHIP

We aim to bring together for their mutual benefit those interested in Model Engineering in all its forms. If you are interested in joining you would be welcome to attend our evening meetings as a guest in order to sample the Society's activities and meet some of our Members before making any decision. Should you decide to join, please submit your application on the attached Form. Your Application for Membership will go to the Committee of the Society for approval. N.B. New Members of the Society are accepted on a provisional basis for twelve months during which time the Committee reserves the right to reject the application. We believe that this process gives new Members the fullest possible opportunity to get to know other members and to come to understand the Society's aims, so that they become actively involved with a genuine interest in promoting the ethos of the Society.
